QUESTION

What can you do to solve
YOUR company's
documentation
problems?

ANSWER

Use The Brandon Group's
Technical Writing,
Graphics, & Desk Top /
Electronic Publishing
Services.

Sample Projects

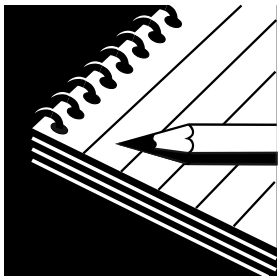

- Currently creating all Technical Service Manuals for a leading manufacturer of respiratory assist devices. Services include: creating and developing detailed service procedures, document designs, overseeing photography, DTP, electronic publishing for the Internet, and CD design and production.
- Currently developing all Retrofit Instructions for the application of electronic and computer controls to industrial / commercial circuit breakers for a leading manufacturer of electrical equipment.
- Currently producing all newsletters, marketing materials, reference materials, internal / external forms and documentation, as well as providing software technical support for a leading, nonprofit professional organization.
- Provided all services necessary to create a comprehensive reference manual (over 1,400 pages) documenting all Pennsylvania State laws and required procedures pertaining to vehicle titling, registration, and driver licensing. Services included project management, research, writing, editing, proofreading, graphic design, and DTP.
